March 24 - Fad vs. Fact: With so much access to nutrition information, it can be tricky to decipher fact from fiction! Everyone seems to be an expert these days on what to eat or how to eat, making it more confusing than ever! Is coconut oil the answer to all our health woes? Should we stop drinking cow’s milk and replace it with soy, almond, or coconut milk? What in the world is gluten, and do we need to stay away from it? A juice cleanse is a sure fire way to lose weight, right? Let’s take a closer look at these fad diets, trends, and foods and find out the truth!

March 31 - Nutrition 101: In our first session, we took a look at diet trends and fads; now let’s examine the basics of healthy eating. Learn the fundamentals on what to eat and how much you should be eating through the guidance of MyPlate. Healthy eating is more about reworking your plate than scarifying foods you love! Let us teach you how!

April 7 - Get Cooking to Improve Your Health!: Research has shown that people who cook more at home tend to be healthier. Cooking is truly one of the best ways to take control of your health. Learn what cooking equipment you need to be successful in the kitchen, and then learn how to stock your pantry so that a healthy meal is always at your fingertips!

Please register me for the Dinner Tonight Lesson Series ($25 fee is non-refundable, is transferable)
